FAMILY HOME HUB | CHORE LIST + HOW TO COMPLETE IT

How to use this checklist

1. Confirm the assigned chore, area, and deadline with the adult assigning it. For a paid job, confirm the amount before starting.

2. Find that chore in this guide and read every step before you begin. The steps belong to one complete chore.

3. Gather the supplies, finish every step, and put moved items and supplies back where they belong.

4. Check the area yourself, then tell the assigning adult it is ready to be checked.

Paid jobs and punishment chores

The existing house list allows additional chores as punishments or as $2-$5 jobs. Confirm which applies before starting; a punishment assignment is not automatically a paid job.

Schedules and assignments

Use the current calendar or adult assignment for what is due. The headings in this guide organize the master list; they do not assign every chore to everyone. Yard assignments: Jaylex - backyard; Jahlen - front yard.

Before you clean

Use a cleaner suitable for the surface and follow its label. Never mix bleach with Pine-Sol or another cleaner. Ask for help with heavy furniture, appliances, or an unfamiliar tool. Follow the couch care label before using water or cleaner on upholstery.
